

Z-CHILL™

VIVIDAIR™
ANYTHING ELSE IS STALE

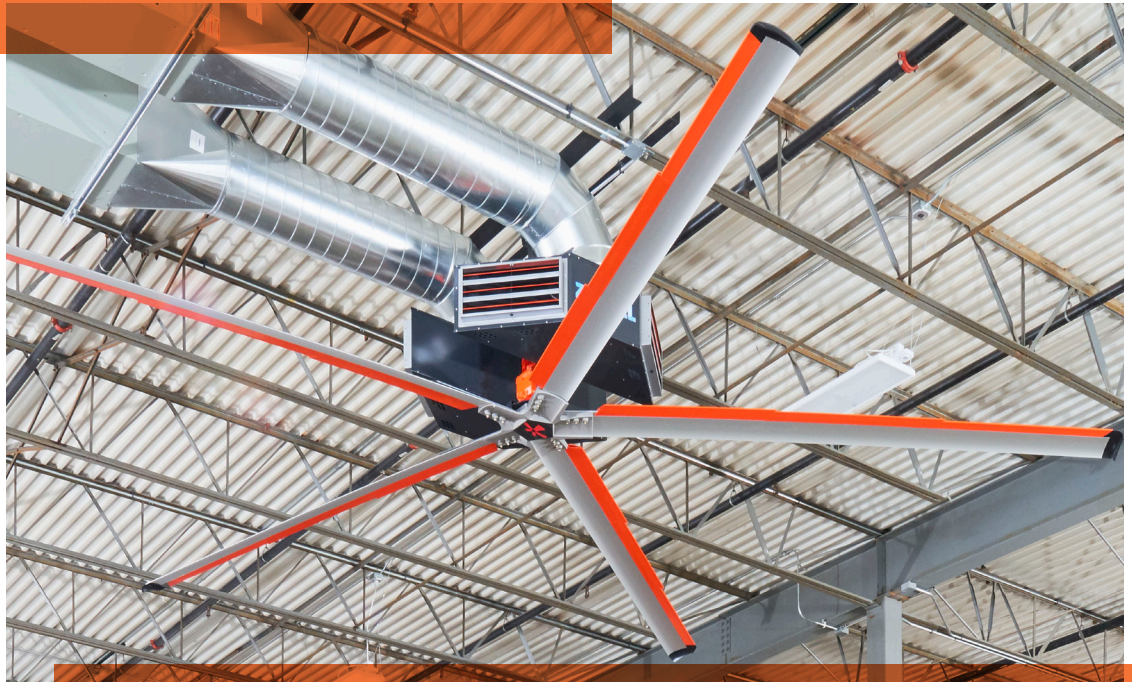

Superior cast hub provides full blade support for added safety.

Spot cooling solution.

Stepped leading edge creates venting which increases performance.

Z-CHILL CONNECTS OUR PATENTED HIGH VOLUME, LOW SPEED FAN TECHNOLOGY TO YOUR HVAC SYSTEM – ALLOWING SPOT COOLING, CREATING A MORE COMFORTABLE WORKING ENVIRONMENT, AND SAVING YOU THE EXPENSE OF AIR CONDITIONING AN ENTIRE FACILITY.

IDEAL FOR

Connecting to existing HVAC systems.

Built for larger warehouses over 4k sq ft and 24 ft+ ceiling height.

As an upgrade to existing Z-TECH fans, Z-Chill can lower temperatures up to 6 degrees cooler than a Z-TECH fan.

5 STANDARD SIZES

24ft, 22ft, 20ft, 18ft, 16ft

FEATURES

COVERAGE AREA

Provides 32,400 sq ft of cooling coverage with fewer blades and fewer fans required. Generates significantly cooler temperatures than traditional HVLS fans alone.

SPOT COOLING

HVLS fan blades power conditioned air to the areas of your facility that need it the most. No dead zones beneath our fans.

PITCHED HUB

Our patented pitched hub design creates a larger surface area, ultimately producing 20% more airflow and an industry-leading CFM.

WARRANTY AND SAFETY

Lifetime warranty on blades and mounting system. 15-year warranty on motors, gearbox, and hub. Our safety system has unprecedented break strength, and our fans can connect to existing alarm systems.
