

RAY-AIR™

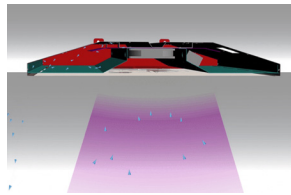

VIVIDAIR™
ANYTHING ELSE IS STALE

Seamlessly designed for any space.

Branded for your company.

Patented 4-Step process to sanitize air in your warehouse, office, or home.

RAY-AIR IS THE ONLY PATENTED UVC TECHNOLOGY BUILT TO PURIFY AIR AND ELIMINATE OVER 99% OF AIRBORNE PATHOGENS. IT'S UL CERTIFIED, FITS INTO ANY SPACE, AND REMOVES THE NEED FOR OVERWORKED HVAC SYSTEMS & FANS TO CLEANSE AIR, NOT JUST COOL IT.

IDEAL FOR

Facilities that need cleaner air - not just cooler air.

Companies who need to meet standards of air quality and want to ensure the health of their employees.

Facilities looking to lower their HVAC costs.

PATENTS

Ray-Air is covered by [13 US Patents](#)

FEATURES

COVERAGE AREA

One Ray-Air Fan can purify a 125 sq. ft. area, making it an ideal choice for everything from warehouses to homes.

MOBILE OR MOUNTED

Ray-Air can be mounted on walls, inserted into ceilings, suspended from a structure, and customized to your building anywhere you have electrical wiring.

PATENTED TECH

Ray-Air is the only UVC air purifier on the market that is UL certified. All metrics are guaranteed and rigorously tested and certified.

5.25 ACH

Ray-Air easily helps companies meet ASHRAE standards. It's proven and tested to provide at least 5.25 air turnovers per hour, and begins purifying air seconds after install.
