

WHO WE ARE

WE'RE AIR SCIENTISTS ON A MIS- SION.

That mission - creating an environment where people want to work, that also happens to save you money. We're the biggest, boldest, most prudent choice.

WHAT WE DO

**WE HELP COMPANIES IMPROVE
WORKING CONDITIONS AND
SAVE MONEY BY COMBINING OUR
PATENTED TECHNOLOGY WITH
BEST-IN-CLASS SERVICE TO IM-
PROVE YOUR AIR QUALITY.**

WHAT IS AN HVLS FAN?

**HIGH VOLUME, LOW SPEED FANS
ENGINEERED TO MOVE A LARGE
VOLUME OF AIR IN AN ENERGY
EFFICIENT WAY.**

HVLS fans stand out for their performance in challenging conditions, making them ideal for use in industrial and commercial settings as well as other applications where traditional fans may not be sufficient.

HOW WE ARE DIFFERENT

OUR PATENTED Z-TECH BLADES ARE THE FIRST AND ONLY OF ITS KIND.

We've designed a fan that reduces frictional resistance while increasing displacement and thrust - resulting in up to 10 degrees cooler air than you'd get with other HVLS fans. But that's not all the ways the air scientists at VividAir surpass the competition.

FANS OF VIVIDAIR

“

We LOVE our VividAir Fans! We have a 20,000 sq. ft. building in East Tennessee where we manufacture suspension kits and chassis for all makes & models of 19 million vehicles. We also fabricate 100% scratch-built award winning vehicles. We have four VividAir fans that work AMAZING and keep our employees cool in the summer. They move A LOT of air and are so silent.

The best part when purchasing these fans was the amazing customer service from first contact to final installation. We had spoken to the 'other brand' several times and were unhappy with how they treated us, plus the VividAir fans are higher-quality and made in the USA product for much less. More fan per dollar!”

CAMREN BEATTIE

Marketing Manager at Scott's Hotrods 'n Customs

VIVIDAIR™
ANYTHING ELSE IS STALE

NO DEAD ZONES

A 20 degree pitched hub design means your employees will experience maximum comfort, even directly below a fan.

ENERGY SAVINGS

The evaporative cooling effect from HVLS fans helps employees feel cooler while the facility temperature remains the same, potentially lowering your A/C costs by 20%.

FEWER FANS NEEDED

Our 12' long blades have a 24' diameter, and move 425,000 cubic feet of air per minute. That covers 30% more area than other HVLS fans.

ONE SPECIALIST FROM START TO FINISH

No person-to-person passing. We give you a single point of contact from quote to install - someone who knows your challenges inside & out and proactively sees your needs.

PERFECT INSTALLATION EVERYTIME

We offer full mechanical and turnkey electrical installation, because we know that a technically superior product doesn't matter if installation isn't perfect.

MADE IN THE USA

All our products are proudly assembled here in the U.S., so you can enjoy a fast delivery and feel good knowing where they came from.

WHAT WE OFFER

Z-TECH™

OVERHEAD: HEAVY DUTY

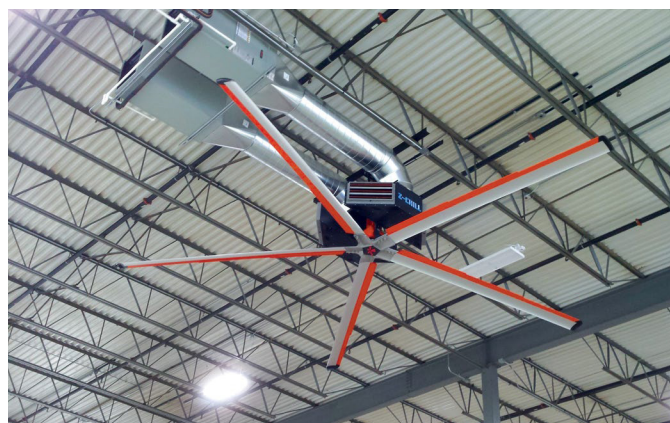

Ideal for warehouses and larger facilities over 4k sq. ft. with 14 ft.+ ceiling height. A Z-Tech fan cools a wider area and has higher air turnovers per minute than any big fan. Sizes: 24, 22, 20, 18, 16, 14, 12, 10, 8

Z-CHILL™

OVERHEAD: HEAVY DUTY + HVAC

Ideal for connecting to existing HVAC systems. Patented design reduces humidity, improves air quality, and lowers energy costs - all in one fan. Sizes: 24, 22, 20, 18, 16

Z-TECH 3™

OVERHEAD: MID DUTY

Ideal for warehouses and larger facilities, Z-TECH 3 has the largest cooling power of any 3-blade fan in its class. It's also quieter and quicker to install than 5-blade fans. Sizes: 24, 20, 16, 12, 10, 8

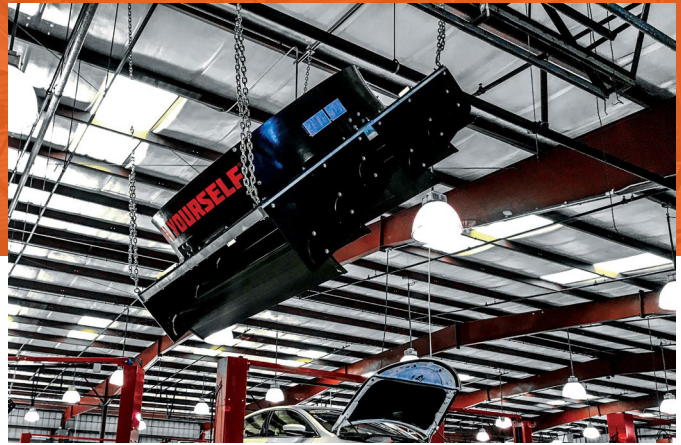

CONZUMER™

OVERHEAD: LIGHT DUTY

Ideal for facilities that only need 1-2 fans. Upgrade your facility's cooling power with our patented pitched hub technology - without any motor wiring or lengthy install. Sizes: 12

TAZ™

IN-AISLE

Ideal for obstructed ceilings and aisles. Same heavy duty power as our HVLS fans, but optimized with a 2-directional setup and 6 airflow louvers. Sizes: 72,36

SAFETY & WARRANTY

OUR COMMITMENT TO YOU DOESN'T STOP AT THE SALE. OUR CEILING FANS COME WITH LIFETIME WARRANTIES ON BLADES AND MOUNTING SYSTEMS.

OUR PATENTED Z-TECH SS SAFETY SYSTEM FEATURES:

- (4) straps with a break strength of 16,000lbs each
- Safety ring made with 1/4" powder coated steel
- Connects to fire suppression systems
- Fan shuts off any time the fire alarm sounds

MOTOR, GEARBOX, AND HUB:

- Z-Tech: 15-year prorated warranty
- Z-Chill: 15-year prorated warranty
- Z-Tech 3: 12-year prorated warranty
- ConZumer: 18-month warranty
- TAZ: 3-year warranty on all parts, blades, and mounting system
